Arnold Schwarzenegger
Governor

January 12, 2010

Dear Sir or Madam:

Air Resources Board (ARB/Board) staff invites you to participate in a public workshop to discuss a proposed regulation for a Renewable Electricity Standard (RES). The RES would reduce greenhouse gas emissions by increasing the percentage of electricity generation provided by eligible renewable resources. The regulation would be designed to implement Governor Arnold Schwarzenegger's Executive Order (EO) S-21-09. This EO directs the Board to adopt a regulation consistent with a 33% renewable electricity standard by July 31, 2010. ARB is developing the RES in cooperation with the California Public Utilities Commission (CPUC), the California Energy Commission, and the California Independent System Operator.

A tentative agenda for the workshop is attached. The Board is scheduled to consider the RES at its July 22-23, 2010, meeting.

The public workshop will be held at the time and location shown below:

Date: Tuesday, February 2, 2010
Time: 9:00 a.m. - Noon
Location: California Public Utilities Commission
505 Van Ness Avenue
CPUC Auditorium
San Francisco, CA 94102

Webcast Information

For those unable to attend the workshop in person, a live video/audio webcast will be available beginning at 9:00 am on February 2, 2010, at:

<http://www.californiaadmin.com/cgi-bin/cpuc.cgi>. During the workshop, the webcast audience may submit questions and comments using the following e-mail address: smk@cpuc.ca.gov.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
